INDEX TO VOLUME 112

Pagination according to months:

January, 1963, 1–58
February, 1963, 59–113
March, 1963, 115–165
April, 1963, 167–237
May, 1963, 239–297
June, 1963, 299–347

Abstracts of Papers Presented Before the Meetings of The Johns Hopkins Medical History Club 155, 220, 330
Abstracts of Papers Presented Before the Meetings of The Johns Hopkins Medical Society 98, 222, 291, 332
Acyanotic Transposition of the Great Vessels. Mehrizi, Ali and Taussig, Helen B. 249
Allan, Warde B.: (see Kress, Milton B.) 115
Alveolar Lining Layer: Recent Concepts of Its Role as an Anti-Atelectasis Factor. Avery, Mary Ellen 98
Ambivalence of Scientists. Merton, Robert K. 77
American Pathology Since 1870. Long, Esmond R. 155
Angiographic Methods of Choice in Evaluation of Stroke Patients. Kuhn, Robert A. and Kugler, Herman 59
Austen, W. Gerald: (see Ebert, Paul A.) 151
Avery, Mary Ellen: The Alveolar Lining Layer: Recent Concepts of Its Role as an Anti-Atelectasis Factor 98

Bates, Donald G.: Some Aspects of Medicine in England. Towards a Study of Diseases in the Restoration Period 330
Bergman, R. A.: (see Goodman, R. M.) 333
Bodian, David: Symposium on Viral Disease. Poliomyelitis: Pathogenesis, Policy, and Politics 224
Book Reviews 48, 103, 156, 229, 295, 335
Borden, Margaret: (see Davidson, Ronald G.) 318
Bronchiolo-Alevolar Tumors of the Lung. Kress, Milton B. and Allan, Warde B. 115
Burn, J. Harold: The Release of Norepinephrine from the Sympathetic Postganglionic Fiber 167

Calcification of Rachitic Cartilage by Urine. Some Observations on the 279
Caldwell, John B. H.: (see Sheldon, Walter H.) 258
Childs, Barton: (see Davidson, Ronald G.) 318
Clinical Arteriographic and Histopathologic Studies on Pseudoxanthoma Elasticum. Goodman, R. M., Smith, E. W., Paton, D., Bergman, R. A., Siegel, C. I., Ottensen, O. E., Shelley, W. M., Pusch, A. L. and McKusick, V. A. 333
Cluff, Leighton E.: (see Goshi, Keiichi) 15, 31
Studies of the Mechanisms of Death in Experimental Pneumococcal Infection 292
Criley, J. Michael: Studies on the Origin of Pathological Heart Sounds by Cineangiocardiography 101
Current and Future Use of Computers in Medicine. Shepard, Richard H. 333

Davidson, Ronald G.: Dosage Compensation in the Regulation of Erythrocyte Glucose-6-Phosphate Dehydrogenase Activity 318
Davis, James O.: The Renin-Angiotensin System and Aldosterone Secretion 332
Dosage Compensation in the Regulation of Erythrocyte Glucose-6-Phosphate Dehydro-

genase Activity. Davidson, Ronald G., Migeon, Barbara Ruben, Borden, Margaret and Childs, Barton 318

Ebert, Paul A.: The Effect of Increased Serum Potassium on the Digoxin Content of the Canine Heart 151
Edgerton, Milton T.: Leprosy in India, 1962 101
Effect of Increased Serum Potassium on the Digoxin Content of the Canine Heart. Ebert, Paul A., Greenfield, Lazar J. and Austen, W. Gerald 151
Electrolytes of Human Gastric Mucosa, Antrum and Fundus. Effects of Histamine Stimulation on Ionic Composition of Gastric Mucosa, Antrum and Fundus, and Its Secretions, Martin, Lay 248
Erythrocyte Glucose-6-Phosphate Dehydrogenase Activity. Dosage Compensation in the Regulation of 318
Exophthalmos in Hypothyroidism due to Hashimoto's Thyroiditis. Mason, Robert E. and Walsh, Frank B. 323
Experimental Pyelonephritis. Morphology and Quantitative Histochemistry of Glomeruli in Pyelonephritic Scars in the Rat. Heptinstall, R. H., Kissane, J. M. and Still, W. J. S. 299

Fisher, A. Murray: Further Studies on the Pathogenecity of Staphylococci. Interaction of Anti-alpha Hemolysin and *Staphylococcus aureus* in Mice 143
Forssman Antigen in the Guinea Pig Desensitized to Forssman Antibody: An Immunofluorescent Study. Spear, Gerald S. and Kihara, Itaru 270
Further Studies on the Pathogenecity of Staphylococci. Interaction of Anti-alpha Hemolysin and *Staphylococcus aureus* in Mice. Fisher, A. Murray and Goshi, Keiichi 143

Gilman Lecture 77
Goodman, R. M.: Clinical Arteriographic and Histopathologic Studies on Pseudoxanthoma Elasticum 333
Goshi, Keiichi: Studies on the Pathogenesis of Staphylococcal Infection
V. Purification and Characterization of Staphylococcal Alpha Hemolysin 15
VI. Mechanism of Immunity Conferred by Anti-Alpha Hemolysin 31
(see Fisher, A. Murray) 143
Greenfield, Lazar J.: (see Ebert, Paul A.) 151
The Spectrum of Tumors of the Sympathetic Nervous System: Maturation and Adrenergic Function 293
Gruenwald, Peter: Pathogenesis and Course of the Pulmonary Lesion in the Respiratory Distress Syndrome of Newborn Infants 99

Hashimoto's Thyroiditis 323
Heptinstall, R. H.: Experimental Pyelonephritis. Morphology and Quantitative Histochemistry of Glomeruli in Pyelonephritic Scars in the Rat 299
Herter Lecture 167
Higgins, James T., Jr.: (see Davis, James O.) 332
Histamine Stimulation on Ionic Composition of Gastric Mucosa, Antrum and Fundus, and its Secretions 248
Howard, John Eager: (see Makui, Takeo) 279
Humphries, J. O'Neal: (see Criley, J. Michael) 101

Immunologic Studies of Systemic Lupus Erythematosus
I. Quantitative Estimations of Nucleoprotein-Reactive Gamma Globulin in Systemic Lupus Erythematosus and Other Diseases. Townes, Alexander S., Stewart, Clarence R., Jr. and Osler, Abraham G. 183

II. Variations of Nucleoprotein-Reactive Gamma Globulin and Hemolytic Serum Complement Levels with Disease Activity. Townes, Alexander S., Stewart, Clarence R., Jr. and Osler, Abraham G. ... 202

Jones, Gordon W.: The Knighted Quack ... 220

Kihara, Itaru: (see Spear, Gerald S.) ... 270
Kissane, J. M.: (see Heptinstall, R. H.) ... 299
Kress, Milton B.: Bronchiolo-Alveolar Tumors of the Lung ... 115
Kugler, Herman: (see Kuhn, Robert A.) ... 59
Kuhn, Robert A.: Angiographic Methods of Choice in Evaluation of Stroke Patients ... 59

Larkey, Sanford V.: Some Aspects of Medicine in England. Controlled Experiments on a Sixteenth-Century Antidote ... 330
Long, Esmond R.: American Pathology Since 1870 ... 155
Leprosy in India, 1962. Edgerton, Milton T. ... 101
Lupus Erythematosus. Immunologic Studies ... 183, 202
Luttrell, C. N.: (see Rahman, A. N.) ... 1

McKusick, V. A.: (see Goodman, R. M.) ... 333
Martin, Lay: Electrolytes of Human Gastric Mucosa, Antrum and Fundus. Effects of Histamine Stimulation on Ionic Composition of Gastric Mucosa, Antrum and Fundus, and Its Secretions ... 248
Mason, Robert E.: Exophthalmos in Hypothyroidism due to Hashimoto's Thyroiditis ... 323
Medearis, Donald N., Jr.: Symposium on Viral Disease. Human Cytomegalovirus Infection and Disease ... 222
Mehrizi, Ali: Acyanotic Transposition of the Great Vessels ... 239
Merton, Merton, Robert K.: The Ambivalence of Scientists ... 77
Migeon, Barbara Ruben: (see Davidson, Ronald G.) ... 318
Mononuclear Cell Phase of Inflammation in the Newborn. Sheldon, Walter H. and Caldwell, John B. H. ... 258
Mountcastle, Vernon B.: The Neural Transformation of the Sensory Stimulus at the Cortical Input Stage of the Somatic Afferent System ... 291
Mukai, Takeo: Some Observations on the Calcification of Rachitic Cartilage by Urine. One Difference between "Good" and "Evil" Urines, Dependent upon Content of Magnesium ... 279

Neural Transformation of the Sensory Stimulus at the Cortical Input Stage of the Somatic Afferent System. Mountcastle, Vernon B. ... 291
New Approach to the Rorschach Test as a Research Tool: I. Preliminary Note. Thomas, Caroline Bedell and Ross, Donald Clare ... 312
Norman, Philip S.: (see Goshi, Keiichi) ... 15, 31

Osler, Abraham, G.: (see Townes, Alexander S.) ... 183, 202
Ottensen, O. E.: (see Goodman, R. M.) ... 333

Pathogenesis and Course of the Pulmonary Lesion in the Respiratory Distress Syndrome of Newborn Infants. Gruenwald, Peter ... 99
Pathogenesis of Viral Meningo-encephalitides. Enhancement of Viral Penetrance into the Brain. Rahman, A. N. and Luttrell, C. N. ... 1
Paton, D.: (see Goodman, R. M.) ... 333
Perry, John E.: (see Cluff, Leighton E.) ... 292
Plain Film in Massive Pulmonary Embolism. Torrance, Daniel J., Jr. ... 292

Pusch, A. L.: (see Goodman, R. M.) 333
Pyelonephritis, Experimental 299

Rahman, A. N.: Pathogenesis of Viral Meningo-encephalitides. Enhancement of Viral Penetrance into the Brain 1
Release of Norepinephrine from the Sympathetic Postganglionic Fiber, Burn, J. Harold 167
Renin-Angiotensin System and Aldosterone Secretion. Davis, James O., Higgins, James T., Jr. and Urquhart, John 332
Roizman, Bernard: Symposium on Viral Disease. Hormonal Modification of Cell Reponses to Virus in Vitro 224
Rorschach Test 312
Ross, Donald Clare: (see Thomas, Caroline Bedell) 312
Ross, Richard S.: (see Criley, J. Michael) 101

Sheldon, Walter H.: Mononuclear Cell Phase of Inflammation in the Newborn 258
Shelley, W. M.: (see Goodman, R. M.) 333
Shelley, William M.: (see Greenfield, Lazar J.) 293
Shepard, Richard H.: The Current and Future Use of Computers in Medicine 333
Siegel, C. I.: (see Goodman, R. M.) 333
Smith, E. W.: (see Goodman, R. M.) 333
Some Aspects of Medicine in England
Controlled Experiments on a Sixteenth-Century Antidote. Larkey, Sanford V. 330
Towards a Study of Diseases in the Restoration Period. Bates, Don 330
A Romantic Controversy. Temkin, Owsei 330
Some Historic Drug Disasters and Their Repercussions. Wolff, Frederick W. 220
Some Observations on the Calcification of Rachitic Cartilage by Urine. One Difference between "Good" and "Evil" Urines, Dependent upon Content of Magnesium. Mukai, Takeo and Howard, John Eager 279
Spear, Gerald S.: Forssman Antigen in the Guinea Pig Desensitized to Forssman-Antibody: An Immunofluorescent Study 270
Spectrum of Tumors of the Sympathetic Nervous System: Maturation and Adrenergic Function. Greenfield, Lazar J. and Shelley, William M. 293
Staphylococcal Infection 15, 31, 143
Stewart, Clarence R., Jr.: (see Townes, Alexander S.) 183, 202
Still, W. J. S.: (see Heptinstall, R. H.) 299
Studies of the Mechanisms of Death in Experimental Pneumococcal Infection. Cluff, Leighton E. and Perry, John E. 292
Studies of the Origin of Pathological Heart Sounds by Cineangiocardiography. Criley, J. Michael, Humphries, J. O'Neal and Ross, Richard S. 101
Studies on the Pathogenesis of Staphylococcal Infection
V. Purification and Characterization of Staphylococcal Alpha Hemolysin. Goshi, Keiichi, Cluff, Leighton E. and Norman, Philip S. 15
VI. Mechanism of Immunity Conferred by Anti-Alpha Hemolysin. Goshi, Keiichi, Cluff, Leighton E. and Norman, Philip S. 31
Symposium on Viral Disease
Interferon and Viral Infections. Wagner, Robert R. 222
Human Cytomegalovirus Infections and Disease. Medearis, Donald N., Jr. 222
Hormonal Modification of Cell Responses to Virus in Vitro. Roizman, Bernard 224
Poliomyelitis: Pathogenesis, Policy, and Politics. Bodian, David 224

Taussig, Helen B.: (see Mehrizi, Ali) 239
Temkin, Owsei: Some Aspects of Medicine in England. A Romantic Controversy 333
The Knighted Quack. Jones, Gordon W. 220

Thomas, Caroline Bedell: A New Approach to the Rorschach Test as a Research Tool: I. Preliminary Note 312
Torrance, Daniel J., Jr.: The Plain Film in Massive Pulmonary Embolism 292
Townes, Alexander S.: Immunologic Studies of Systemic Lupus Erythematosus
I. Quantitative Estimations of Nucleoprotein-Reactive Gamma Globulin in Systemic Lupus Erythematosus and Other Diseases 183
II. Variations of Nucleoprotein-Reactive Gamma Globulin and Hemolytic Serum Complement Levels with Disease Activity 202
Urquhart, John: (see Davis, James O.) 332

Wagner, Robert R.: Symposium on Viral Disease. Interferon and Viral Infections 222
Walsh, Frank B.: (see Mason, Robert E.) 323
Wolff, Frederick W.: Some Historic Drug Disasters and Their Repercussions 220
